

Lifetouch.

A New Photography Experience

Lifetouch is leading the photography industry in providing comprehensive photography session safety protocols. These protocols follow the guidelines and recommendations of the Center for Disease Control (CDC), U.S. Department of Health & Human Services (HHS), and Occupational Safety and Health Administration (OSHA) standards related to COVID-19.

Our new photography safety protocols include

ENHANCED CLEANING

Photographers are provided sanitizing wipes and spray to clean camera stations and equipment

SOCIAL DISTANCING

Employees will follow new posing and social distancing requirements to ensure a safe and comfortable photography session

PRE-SESSION HEALTH CHECK

Photographers are provided a thermometer for their daily self-health assessment before reporting to a photography event

SAFETY TRAINING

Lifetouch employees are required to complete comprehensive safety and cleaning protocol training

MASKS

Photographers are required to wear masks during the entire photography session. We recommend the use of masks or other face coverings for both students and other individuals participating in the Picture Day process

CUSTOMIZED PLAN

Most importantly, we'll work with you to establish a plan that fits your needs

While photography sessions may look different this year, as a trusted partner, our goal remains the same; to ensure you receive this essential photography service and families can continue to capture life's memories.
